Remarks and Arguments

Claims 1-28 were presented for examination.

The drawings have been objected to under 37 C.F.R. §1.83(a) because they fail to show several numeral designations to which the specification refers and because some drawings use “stacked” numerals.

In response, both original sheets of drawings have been replaced. The replacement sheets now have added numeral designators for controller 20 in Figure 1 and plate 15 in Figures 2, 3A and 3B. Some numeral designator lead lines have been moved in order to make the references more clear. All “stacked” numerals have been removed. In addition, reference numeral 20 in Figure 4 has been changed to reference numeral 27 in order to avoid the same reference numeral referring to two different elements. A corresponding change has been made in the specification at page 9 in order to accommodate the change in Figure 4.

Since all claims were indicated as allowable, this application is now believed in condition for allowance and a notice of allowance is earnestly solicited. If the examiner has any further questions regarding this amendment, he is invited to call applicants’ attorney at the number listed below. The examiner is hereby authorized to charge any fees or direct any payment under 37 C.F.R. §§1.17, 1.16 to Deposit Account number 50-3969.

Respectfully submitted
